

Amandeep Singh

A seasoned **Platform Engineer** with **~10 years of** experience in India and Germany, recognized for a strong **test-first mindset** and integrating **CI/CD** pipelines. Proficient in deploying, and managing scalable systems using tools like Docker, Kubernetes, etc.

Technical Experience

Proficient In:	Cloud, Kubernetes, CI/CD, Linux/Unix, Problem Solving, Git
Experienced With:	Backend: Java, Ruby on Rails, Spring boot, JUnit, Jasmine, Rspec, pytest, Cucumber DevOps: Golang, Python, Jenkins, Terraform, Docker, Helm, TCP/IP stack, Information Security, Concourse CI, Github actions, GOCD, Observability, Jaeger, Vault, Backstage, bitbucket pipelines, etc. Telemetry: EFK Stack. Others: Data structures, Algorithms

Experience

Groww: (August 2024 -) **SDE-4 DevOps** (Bangalore, India)

Tech Stack: kubernetes, GCP, Golang, Argo, Terraform, Helm, Confluent, etc.

- Led a change timeline project from scratch at Groww.
- Established a platform engineering mindset and processes at Groww.
- Set up Infrastructure as Code (IaC) for Kafka to Confluent migration.
- Provided Continuous Delivery (CD) support and took ownership across the organization.
- Led the team as both a Tech Lead and Engineering Manager.
- Initiated and led a cost optimization initiative for the Infra Platform team.

Getir: (Mar 2023 - July 2024) **Senior Platform Engineer** (Berlin, Germany)

Tech Stack: kubernetes, AWS, Golang, Vault, Argocd, Spinnaker, Backstage, Terraform, bitbucket pipelines, Helm, Newrelic, CDK, keycloak, etc.

- EKS infra: Cluster upgrades, external-dns setup, Vault integration, etc.
- Led CICD (Bitbucket, Spinnaker -> ArgoCD, ~800 services) and Engineering Experience team in Getir.
- Led fixing and redesigning internal ephemeral environment creation on kubernetes from **1+ hour to 10 minutes** saving ~93.5% in cost.
- IC and maintenance on Service catalog (Backstage) for ~1000 engineers in the org.
- Built a tool for answering platform support questions in a **OpenAI hackathon** in Turkey.

- Active support for the Product teams in Getir using inhouse built tooling (Piebot).
- Led multi account initiative in the Org.

Oracle: (Jan 2021 - July 2022) **Principal DevOps Engineer** (Bangalore, India)

Tech Stack: OCI, python, Terraform, Jenkins, Internal CICD and monitoring tools, etc.

- Moved the entire setup of CICD (Exadata DB automation) taking more than **12 hours to 1/2 hours asynchronous setup** saving **~20k USD or 93.5%** each execution.
- Automating a comprehensive set of operations in the DB cloud for a faster feedback cycle.
- IC on a JSON/YAML based input project to provision resources in the cloud (OCI).
- Setup framework and onboarded multiple existing/new projects with unit/integration testing.
- Actively working with security on incident management from the DB cloud team side.
- R&D on multiple new initiatives for the Cloud Database team.
- **Mentor** to junior/mid-level level engineers.

State Street: (April 2019 - Dec 2020) **Senior Associate - Assistant Manager** (Bangalore, India)

Tech Stack: kubernetes, AWS, Golang, Concourse, Internal CD tools, etc.

- Led the team for CICD setup from scratch, ELK stack on Kubernetes, and IC on a blockchain initiative.

ThoughtWorks: (Jan 2015 - April 2019) **Application Developer** (Gurugram, India)

Tech Stack: kubernetes, AWS, Java, Spring boot, Ruby on rails, GOCD, Concourse, Terraform, ELK, Prometheus etc.

- Tech consulting for multiple clients including **Delta** airlines, **Vakt**, Credit suisse, and football pools, etc.

Certifications

2020-2023 **Certified Kubernetes Administrator;** Linux Foundation

Education

2019-2020 **Post Graduate Diploma, Information Security;** IGNOU (Delhi), India
Project title: Security implementation in CI/CD using Concourse

2011-2015 **B.Tech, Computer Science and Engineering;** GNDU (Amritsar), India
