

Amandeep Singh

Certified Kubernetes Administrator, and a DevOps specialist with the **Test first mindset** and **8+ years** of experience in the financial, trading, and non-profit sectors. Throughout my career, I was privileged to work with skilled people in multiple realms, and elite projects, including Delta Airlines, Football Pools, VAKT, Credit Suisse, et cetera.

Experience

Getir: (Mar 23 - Working) **Senior Platform Engineer** (Golang as first language)

- Led CICD (Bitbucket, Spinnaker -> ArgoCD) and Engineering Experience team in Getir.
- Led fixing and redesigning internal ephemeral environment creation tool (Bundler) from **1+ hour to 10 minutes**.
- IC and maintenance on Service catalog (Backstage) for ~**1000** engineers in the org.
- Active support for the Product teams in Getir using inhouse built tooling (Piebot).
- Led multi account initiative in the Org.

HelloFresh: (Sept 22 - Feb 23) **Senior Platform Engineer** (Golang as first language)

- IC on self-hosted GitHub Actions running on AWS Kubernetes cluster (EKS).
- Active support for HelloTech on CICD in general.
- Led the E2E testing initiative for platform related tools and code.
- Moving Artifactory from **manual UI-based setup to Terraform** deployed on EKS cluster using configured helm charts.
- IC on standardized helm templates used across all services in HelloFresh.
- Standardizing common CICD tasks across Hellotech at a central place.
- IC on automating resource provisioning in GitHub using terraform IAC.

Oracle: (Jan 20 - July 22) **Principal DevOps Engineer** (Python, Golang for competitive programming)

- Led the CI/CD team for multiple projects.
- Moved the entire setup of CICD (Exadata DB automation) taking more than **12 hours to 1/2 hours asynchronous setup**.
- Automating a comprehensive set of operations in the DB cloud for a faster feedback cycle.
- IC on a JSON/YAML based input project to provision resources in the cloud (OCI).
- Setup framework and onboard multiple existing/new projects with unit/integration testing.
- Actively working with security on incident management from the DB cloud team side.
- R&D on multiple new initiatives for the Cloud Database team.

State Street: (April 2019 - Dec 2020) **Senior Associate - Assistant Manager** (Golang as first language)

- Implemented a complete CI/CD solution for an internal Application from scratch using ConcourseCI considering developer productivity as the top priority.
- Enabled a team in Artefacts management and Deployment on Kubernetes with sandbox environments for a faster feedback cycle.
- Enabled a blockchain initiative at State Street from the DevOps perspective.
- Implemented an Enterprise level observability stack including EFK, and Open Tracing running on Kubernetes.

ThoughtWorks: (Jan 2015 - April 2019) **Application Developer** (Ruby, Java as first language)

- Helped in the automation of the calabash test suite for **Delta** airlines.
- Worked on a betting platform product with ~25 micro-services written in Ruby on Rails deployed using Vagrant and Puppet.
- Worked on a hospitality business in creating multiple UI's/single backend platform for all their franchise brands.
- Worked on an internal platform of an investment bank to manage their Gift and Entertainment Services.
- Worked and enabled a first-class blockchain platform **Vakt** from the DevOps side.
- Worked end-to-end on an internal Application [Ramp up] of Thoughtworks starting from analysis till deployment.

Technical Experience

Proficient In: Cloud, Kubernetes, CI/CD, Linux/Unix, Problem Solving, Git

Experienced With: **Backend:** Java, Ruby on Rails, Spring boot, JUnit, Jasmine, Rspec, pytest, Cucumber

DevOps: Golang, Python, Jenkins, Terraform, Docker, Helm, TCP/IP stack, Information Security, Concourse CI, Github actions, GOCD, Observability, Jaeger, Vault, Backstage, bitbucket pipelines, etc.

Telemetry: EFK Stack, Open Tracing.

Others: Data structures, Algorithms

Open Source Please visit my **GitHub** profile for my side projects, and **Open Source contributions**

Certifications

2020-2023 **Certified Kubernetes Administrator**; Linux Foundation

Credentials: LF-ipxdcfqgi3

Education

2019-2020 **Post Graduate Diploma, Information Security**; IGNOU (Delhi), India

Project title: Security implementation in CI/CD using Concourse

2011-2015

B.Tech, Computer Science and Engineering; GNDU (Amritsar), India
